

● FIRST 100 HOSTS · INVITATION

For hosts who want a *fair* deal.

You list at your price. You keep your price. Your guest pays less. No commission, no pricing algorithm, no fine print. An exclusive rental platform opening region by region, starting with Goa.

0%

HOST COMMISSION

7%

GUEST FEE, ALL IN

1,00,000+

GUEST NETWORK, BUILT ALREADY

wayzyy.com

You already know what's wrong.

You own the property. You clean it, you furnish it, you answer guests at midnight, you handle every complaint. You put in all the work.

Then 18% of everything you earn goes to a platform that did none of it.

ON A ₹10,000 NIGHT

₹1,800

gone. Not once, but on every booking, every payout, forever.

AND WHEN IT GOES WRONG

You're mostly on your own.

A damaged item, a bad guest, a dispute. You read help docs, you wait for a reply, and then you end up fighting it out with the guest yourself.

That's the deal today. **We think you deserve a better one.**

What you ask for is what you get.

List at your price and keep your price. The full amount, with no deductions, no percentage cut, no surprises. Your payout is exactly what you listed, every time.

ONE SIMPLE COMPARISON: A HOST WHO WANTS ₹10,000 PER NIGHT

	Other platforms	Wayzyy
You list at	₹12,195	₹10,000
You take home	₹10,000	₹10,000
Guest pays	₹12,195	₹10,700
Platform takes from you	₹2,195 (18%)	₹0

₹1,495

Same earnings for you, but your guest pays ₹1,495 less. Your listing is more competitive by default, books faster, and attracts more guests. No tricks, just better math.

What 18% actually costs you every year.

The ₹10,000 example is illustrative. Here's the same commission against real Goa short-term rental market data, not estimates.

Market	Annual revenue	Occupancy	Lost to 18%
South Goa (low end)	₹3,53,800	31.2%	₹63,684
Goa overall (median)	₹6,53,000	46%	₹1,17,540
North Goa (high end)	₹6,88,900	35.2%	₹1,23,999

₹63,684 to ₹1,24,000 handed over every single year, just in commission.

That's before cancellation penalties, service fees, or currency conversion costs. On Wayzyy, that entire amount stays with you. Every year, for every property you list.

So how does Wayzyy make money?

Honestly, through a small prepaid credit pack that unlocks your booking capacity. You buy it once and it covers months of bookings. No hidden fees, no per-booking cut, no surprises on your payout screen.

₹600

credit pack

₹20,000

bookings unlocked

₹1,200

credit pack

₹50,000

bookings unlocked

₹2,200

credit pack

₹1,00,000

bookings unlocked

₹5,000

credit pack

₹2,50,000

bookings unlocked

7%

Guests pay a 7% service fee at checkout: visible, transparent, and significantly lower than what they'd pay elsewhere. Nothing is ever deducted from your payout.

MARKETING, ON US

You're not just listing. You're founding this.

As one of our first 100 hosts you get something that isn't on the table later: we market your property, at no cost to you. Our way of saying thanks for taking a chance early.

01 Creator-shot reels of your property

Filmed and edited to actually get watched, not another phone clip.

02 Static ad creative built around your listing

Ready to run on Instagram, Stories, or WhatsApp.

03 Share-for-booking reels

Content your guests want to repost, and every share links straight back to your Wayzyy listing.

REELS ALREADY RUNNING FOR WAYZYY: CREATOR-SHOT, EDITED, AND DISTRIBUTED BY US

SEE THEM ALL ON INSTAGRAM • [WAYZYY.COM/LINKS](https://wayzyy.com/links)

An audience we already built, before Wayzyy existed.

We run Geek Room, a community of developers, engineers, and working professionals across India. Whenever these teams travel, whether offsites, founder retreats, hackathons or a first trip to Goa, Wayzyy is what we put in front of them. Not generic ad spend they have to discover on their own.

1,00,000+

developers and professionals inside the Geek Room network

200+

registered companies and communities we're directly in touch with

500+

bookings a year if just 0.5% of that network travels to Goa. Illustrative, not a promise

EVENTS RUN WITH

Microsoft · Mastercard · Groq · Pathway, alongside other MNCs and technical communities.

We tested this exact model on properties we managed ourselves in Gurgaon before building Wayzyy, and saw occupancy move in a way paid ads never did, because those guests were already warm from our events, not cold search traffic.

North Goa averages ~35% occupancy market-wide.

Our goal isn't to match that baseline. It's to route our own community's travel demand into properties like yours and push past it. This channel compounds: every event and partnership adds to the pool, instead of resetting like a one-off campaign. And it costs you nothing.

Listing takes minutes, not days.

Already listed elsewhere? You don't start from scratch and you don't re-upload anything yourself.

Step 01

Share your existing listing link

And give us approval to list it on Wayzyy.

Step 02

We fetch everything

Details, photos, description.
No re-typing, no re-shooting,
no repeat paperwork.

Step 03

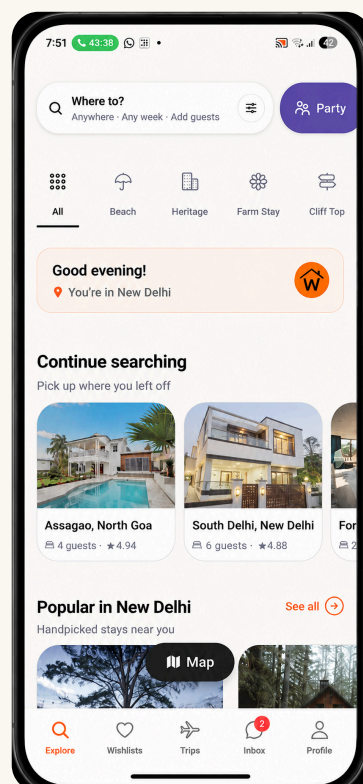

You review, then go live

Whenever you're comfortable. That's the whole process.

An app built to get out of your way.

- Clean, fast interface designed with real host input, with no confusing dashboards, no learning curve.
- Fully secured payments with instant confirmation.
- Tested and refined by industry experts before launch.

List a property, get bookings, get paid, without fighting the platform along the way.

THE WAYZYY APP

Support that doesn't leave you alone.

In-house trained team: not outsourced, not scripted, not a bot. We step in between you and the guest as a neutral mediator, and we're built to resolve your problem, not close a ticket.

DISPUTES RESOLVED WITH EVIDENCE, NOT GUESSWORK

Every host and guest is verified through DigiLocker. When something goes wrong, you're dealing with a real, verified person. That changes everything.

24 hrs

Raise a dispute within 24 hours of checkout.

24-48 hrs

Direct conversation on-platform. Most things resolve here.

7 days

A clear yes-or-no decision. Not a runaround, not a template email.

OUR 3-LAYER EVIDENCE REVIEW

01

Timestamped photos of the damage.

02

Original purchase invoice, so claims are based on real value, not inflated guesses.

03

Full review of the on-platform chat history for context.

Your price stays your price.

We never suppress your pricing. Not off-season, not through an algorithm, not through "smart pricing suggestions." Your visibility comes from your ratings, your response time, and your guest experience. Not from whether you let a machine set your rate.

Off-season shouldn't mean a price war.

Elsewhere, when demand drops every host starts slashing prices to stay visible, and if you don't join in, your listing quietly disappears. Here, visibility was never tied to being the cheapest listing on the page. And because our guest fee is already lower, a guest hunting an off-season deal finds your listing more attractive by default. You're not racing anyone to the bottom.

RATINGS THAT ARE FAIR

Anything below 3 stars is verified before it goes live.

If a guest threatens a 1-star unless you refund them, that review is checked against the facts before it ever touches your profile. No blackmail, no unfair public damage.

THE WAYZYY VERIFIED BADGE

What you see is what you get.

We verify your property with timestamped photos, cross-check amenities, and confirm registration documents. New listings with zero reviews still look credible from day one. That's the point.

In short: Your rate is never touched, never nudged, and never held against you in search. Your reputation is protected, and your listing is verified before a single guest sees it.

No complicated math. No hidden fees.

You list at your price. You keep your price. Your guest pays less. Your property books faster. And when something goes wrong, someone actually picks up.

We'd love to have you on Wayzyy. Read through our docs, ask us anything. We mean that. And if you're ready, you'd be joining a growing community of hosts who decided they deserved a fairer platform.

Welcome to Wayzyy.
